War Department Makes It Plain That All Must Register and That It Must All Be Done On The Day Set

PROVISIONS MADE FOR OUT-OF-TOWNERS

Washington, May 15.—The war department today made the following announcements regarding the registration of citizens liable to draft:

The war department wishes to impress upon the people that there is only one day for registration. All males between the designated ages must register on the day set. The fact that five days were allowed for the placing of the necessary blank forms in the hands of registrars appears to have misled some headline writers. One day only—the day fixed in the president's proclamation—will be devoted to registration.

"The war department is gratified by the spontaneous offers of uncompensated assistance in carrying out the work of registration.

"One father in offering to serve as registrar writes: 'I have two sons in the guard and one in the regular army but I want to do my own little bit.' This is typical of hundreds of letters. All such offers properly should be made to the governors who are the heads of the registration machinery of their respective states.

"It should be clearly understood that no male resident of the United States between the designated ages is excused from registration unless he is already in the military or naval service of the United States; that is, a member of the regular army or navy, the marine corps, coast guard service, or that part of the national guard now actually in the federal service. Registration is distinct from selective service. Registration is a necessary preliminary to the later process of selection.

"It is useless to ask registrars to exclude any one from registration. The registrar has no such power. No one can suspend the law requiring all to register.

"It is important that all shall understand the significance of registration and it is hoped that the day will be approached in the spirit with which the government has appointed it. Democracy is its essence. No one can absent himself, nor can the well-to-do man hire another to represent him on the occasion. The country's manhood will present itself on this day and by so doing will say in effect: 'Here am I. Take me.'

"Not only has the individual citizen of the country made a remarkable response to the registration call, but the states through their official heads have indicated such zeal that there is great rivalry among some of the commonwealths for the honor of making the first complete registration returns.

"Many questions are asked daily at the war department concerning the registration of traveling men and other absentees. On the sixth day after the date of the President's proclamation anyone subject to registration who expects to be absent from his home on registration day should go to the clerk of the county where he may be staying. If he is in a city of over 30,000 population the city clerk is the official to whom to apply. The absentee will be told how to register and a registration card will be filled out. This card must be mailed by the absentee so as to reach the registrar of his home precinct by registration day. The clerk to whom the absentee applies is not empowered to issue the absentee's registration card.

Roosevelt Division Amendment Is Written Into The Army Bill

By Robert J. Bender

Washington, May 15.—The Roosevelt division amendment is now a clause in the selective service bill. House and Senate conferences today wrote into the measure the amendment offered in the Senate by Senator Harding of Ohio, which stands but it was pointed out that there is nothing in the bill which will compel the President to raise the volunteer division and he can do so if he desires.

Germans Start Counter Offensive On All Lines

May Develop Into General Offensive Along Entire Battle Line.

London, May 15.—The Germans launched a concerted counter offensive on both the French and British fronts of such force as to suggest almost a general counter offensive movement. The attacks were repulsed for the most part but the French and British were compelled to relinquish small trenches in their newly gained positions on the Hindenburg line, particularly around Bellecourt. There was heavy fighting followed by an attacking wave.

To the north of the village Hall, reported that the British advance posts "fell back a short distance." Other attacks were reported by the French war office near the village of Billancourt north of Crayonne east of Hill 108 Northeast of Duheret. The attacks were repulsed. All the German attacks were declared unsuccessful according to the official statement.

High School Girls Will Become Farmers

Boys of Local Lassies Will Raise Onions, Dust and Parasols

Clearfield High school girls do not propose to take a back seat for the High school boys when it comes to doing their "bit" in the first line trench, better known as the back yard garden. That is, some of them don't. To prove the truth of our statement we want to add that Misses Emily Ganulin, Lillian Moore, Mary and Margaret Waterworth, Jean Shaw and Pauline Neff have arranged to take charge of two lots located on the flat along the river near the upper ice house just as soon as the ground can be got in shape for planting and promise to have the banner garden on that side of the river the coming summer.

The girls are simply devouring all available books on gardening and will be fortified with expert knowledge when hostilities begin.

Gen. Petain Will Head French Field Forces

Council of Ministers Makes Many Changes in Army of France

(By United Press) Paris, May 15.—General Petain was today named Generalissimo of the French army with supreme command of the forces in the field. General Foch, one of the heroes of the Marne, was named to succeed Petain as chief of staff. General Nivelle has been appointed commander of French field forces in certain army groups. This sweeping change in the French army was decided upon at a recent session of the council of ministers.

TORPEDO MISSED LINER BALTIC

New York, May 15.—A torpedo fired by a German submarine at the White Star liner Baltic on April 19, missed the big ship about ten feet according to passengers who have arrived in New York.

This was the second attempt on the Baltic in two days. Both were fruitless. The first was made on April 18, and the wake of the torpedo was seen in time to swerve the Baltic from her course. On Thursday the danger was greater and the vessel escaped by a hair's breadth. On Friday's occasion the Baltic was the victim of a direct hit. The survivors are also authority for the news of the sinking of the British steamer Osvald from Pensacola to Liverpool on April 23. There was no warning before the submarine's attack. The senior wireless officer was drowned, including Arthur Ferguson, of Detroit, an American seaman.

TO MARRY EMBASSY SECRETARY

Washington, D. C., May 14.—The event of the week in Washington society circles will be the wedding of Miss Anna M. Adams and Ferdinand de Noehrenschmidt, secretary of the Russian embassy. The ceremony is to be performed tomorrow afternoon at St. John's church and will be followed by a reception at the home of Mrs. M. A. Adams.

MOVEMENT FOR ERECTION OF MEMORIAL

Clearfielders Want to See Suitable Monument, Shaft or Bronze Tablet Dedicated to Our Protectors

SENDS CHECK TO START IT

Clearfield, Pa., May 7, 1917. C. A. Stewart; Editor Clearfield Progress

Dear Sir: Recognizing your valuable paper as being foremost for the advancement of Clearfield and the welfare of the county and having the means at your hands to promote anything for the benefit and uplift of the citizens thereof I desire to make the following suggestion to you, which I hope you will give consideration, and that the results will be obtained goes without question.

The writer, believing that Patriotism in Clearfield county is today at the point where everybody is desirous of doing their "bit" toward showing the true Patriotic spirit, believes now would be the proper time to advocate the erection of a suitable monument to the "Soldiers and Sailors" of Clearfield county, at suitable point which might be chosen by the proper authorities, either in front of the court house or in front of the new high school building.

At this time when many of the patriotic boys of our town are enlisted in defense of Old Glory, as many have done in the past, or whenever the flag was in danger, and when many of us realize it is impossible for us to enlist as in the past war, we believe we would be showing the patriotic spirit by starting a movement that would be the means of having a monument erected in honor of the "Soldiers and Sailors" and that suitable bronze tablets be used to have the names of each of the adjoining counties have done. The monument recently erected by the citizens of Cambria county in the public square at the county seat would be a fine model for us to copy, and one which would not only be a credit to our county, but would "give honor to whom honor is due."

The writer would suggest that if it should be impossible to raise the funds to put up a suitable monument that bronze slabs be placed on the Clapham street side of the court house.

While the writer is not financially situated so that he can make a large donation toward the movement referred to he knows that we have many men of means in Clearfield county who would be, and to whom he has talked to on the matter, and if your valuable paper will appear to the patriotism of the citizens of the county, knows they will respond.

I would suggest you start a "Roll of Honor" to the "Soldiers and Sailors Monument Fund" publishing from day to day. The writer herewith encloses a small check to start the fund rolling.

Having you will give this matter consideration at this time, hereto be, Very respectfully, CLEARFIELD CITIZEN

Now that the thought of all local American citizens are turning to the men behind the guns in our Uncle Sam's army and navy and we witness the sacrifices being made daily by the young men of our community who patriotically serve home and abroad to the front in defense of our land and our flag and the

President Is Out Of Patience With The Dilatory Action On War Program By Both Houses

Has Called Conference With Leaders Of Both Parties For Tonight When He Will Demand Prompt Action

FOOD CONTROL IS TO BE MAIN SUBJECT

Washington, May 15.—President Wilson today decided to apply the whip to Congress. He is said by close advisers to be out of patience with the lagging dragging methods of Congress during the past six weeks.

He is displeased at the injection of wholly extraneous matters into the war legislation which the administration has declared must be put through if America is to aid her allies. The first step will be conferences with leaders of both parties and both houses.

The President's close advisers declare that the President will not mince words with the legislative leaders. President Wilson called for a conference tonight at the White House to discuss a food control program. Secretary Houston with members of the House and Senate agricultural committee will attend. The government intends to secure authority for handling the food situation in the omnibus bill if possible.

The navy department announced that inactivity of Congress has seriously interfered with the navy program, particularly the equipment of submarine chasers.

Secretary Daniels urged Congressman Padgett, chairman of the House naval committee to get quick action on the bill empowering the government to "commandeer" private vessels when exorbitant prices are demanded as it is necessary to carry out the naval plans.

COURT NOTES

Peter Mickler, 17-year old boy, who was "play" school, was brought before Judge Bell this morning by Truant Officer D. S. Knorr.

After hearing the story of the truant officer, Judge Bell gave the boy some fatherly advice and sentenced him to Glen Mills. But the operation of the sentence depends upon Peter himself. If he goes home and attends school regularly and behaves himself he will be alright, but if he fails then Juvenile Officer Leary will take him to Glen Mills.

The celebrated will case from DuBois, mention of which was made in yesterday's Progress, was decided in favor of the plaintiff, the jury finding from the testimony that although no will has been found it was really in existence at the time of the death of Mrs. Pentz.

Under the terms of the will as testified to by the witnesses, Mrs. Pentz desired to leave her home and furnishings to her two daughters by her second husband, and the balance of her property was then to be divided equally between all her heirs there being several sons and daughters by a previous marriage. Following the testator's death no will was forthcoming and the testimony indicated the belief that same was destroyed after her death.

Workmen And Soldiers Council Makes Appeal

Remind Russian Citizens That The Kaiser Is Destroying Russia.

Petrograd, May 15.—A powerful appeal to the Russian soldiers not to be blinded by the fact that Germany is seeking to free Russia but to be loyal to their government was made today by the Workmen and Soldier's Council.

"Soldiers and comrades," the proclamation reads, "we speak in the name of the Russian revolutionary democracy. Do not forget that the Kaiser's regiments are destroying Russia. It is an irreparable catastrophe not only to us but to the entire world and you must revolutionize Russia with all your power. A reprieve is impossible and we cannot have peace while you remain inactive in the trenches."

There will be a meeting of all members of the Red Cross chapter in Clearfield Friday afternoon May 18th at 2 o'clock in the dining room of the Presbyterian church. Each lady is asked to bring scissors, thimble, needle, tape line and white apron. We hope all the ladies who have joined will come.

By request of the chairman, MRS. A. O. SMITH

R. A. Miller and family of Stroudsburg are visiting in Clearfield today.

Mrs. John Barnes, wife of F. L. Barnes, and Mrs. Frederick of Tipton, Pa., are visiting in Clearfield today.

Ray Deaton, a local heavy pilot at that, has a party of wheat, a pair of May 15th and one named Marguerite.

British Steamer Abosso Sunk On April 24 With Loss Of Ninety

New York, May 17.—Ninety lives only for suppressing the news of the sinking of some big ship with a loss of more than 70 lives. The Chronicle, a column to the stories of the ship's crew, is now being told today from Europe. The ship was a cargo vessel, carrying a large quantity of war material, and was sunk by a German submarine on April 24.

TUESDAY EVENING, MAY 15, 1917.

They're speeding still.

When in doubt—grab a hoe.

A little bit of sun goes a long way these days.

The man or boy who can find nothing to do today is stone blind.

Another day has passed with no solution of the Caldwell mystery. The authorities, we understand, are making a rigid investigation and it is hoped that no stone will be left unturned in their effort to unravel the mystery of the disappearance of little Arthur Caldwell. The forest and the waters refuse to give him up and it is now time to turn to other channels of investigation. It is a matter of public interest to have the matter cleared up for all time.

The cool weather we have been having will result in our being deceived as to sanitary conditions about the city. One week of warm weather will show up conditions that will be dangerous to the welfare of the community. Manure piles are still uncovered. We have no criticism of our board of health. The health officer is making his rounds and performing his duties but it is doubtful whether all the existing menaces to health will be removed unless drastic action is taken. The time to do it is now. There is absolutely no excuse for the conditions and the Board of Health can do no better than administer the law.

Democrats are rejoicing with Republicans over the House action on the Roosevelt amendment. The action removes the blight of partisan politics at a time when it is so necessary that politics be put to the discard. Politics have played a large part in the deferring of the House and Senate on this matter, but if, in the end, Teddy is allowed to go ahead with his chosen work, the political part in the regrettable incident will be forgotten. It is unfortunate, however, that the delay occurred for T. R.'s greatest use would have been in the stimulus his action would have given recruiting. Conscription minimizes the value of this action now.

PAY THE FIDDLER

Too often our charity is only in our prayers, and our sympathy while productive of tears and best wishes, is not of the genuine brand that unlocks our pocketbooks and thereby helps material wants in this old materialistic world. Prayers and sympathy are two of the greatest things in the world for comfort of mind and heart but when it comes to the stomach and the warmth of the body there is only one remedy and that is hard cash or what it will buy.

Thus it is with our patriotism. You cannot buy patriotism, but a little cash will go a long way toward demonstrating your patriotism. We recently had a patriotic rally and parade. Hundreds, yes thousands, marched for hours in unpleasant weather to pay homage to Old Glory's proudly waving over the entire city. Men in all walks of life laid aside their business and their work and much good shoe leather was sacrificed to honor the Stars and Stripes.

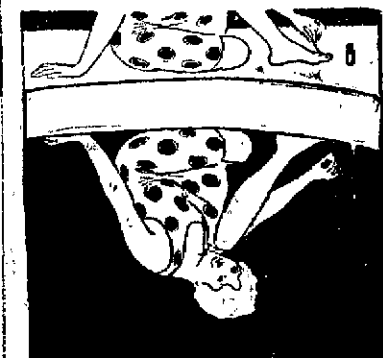

In spite of these demonstrations it is a noticeable fact that when the collection basket is passed there is a dwindling off in the crowd. We shout ourselves hoarse at the sight of the flag but we howl for mercy when we are called upon to pay taxes to support the nation of which Old Glory is the emblem and as for giving anything voluntarily towards building monuments to departed heroes it is seldom indeed that it is accomplished except by hard work on the part of a body of men.

A patriotic gentleman of Clearfield has started a fund

for the erection of a memorial to our Clearfield county soldiers and sailors and we desire to commend the action. It does not call for large donations and every man, woman and child should add their mite to the fund. The Progress will act as receiver of the fund for only three or four days and then it will be turned over to one of the financial institutions of the city or some other authorized authority to accept it. This form of action should appeal to those who are unable to offer their services in any other way. It really is not a service to Uncle Sam but rather a testimonial to those who have fought our battles in the past and from whom we get encouragement for the future.

Corns Peel Right Off With "Gets-It"

2 Drops and the Corn is a "Goner!"
When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do. Put

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrive! Loosen and Peel Off!

2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off.

There's no other corn remover in the world that acts like "Gets-It." No new discovery has been made in corn removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Clearfield and recommended as the world's best corn remedy by C. W. Dooley, Irwin Drug Co., and Woodward & McPherson.

POSSIBILITY OF WAR BREAD

Chicago, Ill., May 14.—Important recommendations will be made to bakers of the country and suggestions of importance may be made to the government at a special meeting of members of the National association of Master Bakers to be held here this week. S. F. McDonald of Memphis, president of the association, has issued the call for the meeting. The possibility of the 20-cent loaf and the possible introduction of war bread in the United States are among the subjects that are expected to receive the attention of the meeting.

EXTRA SESSION IN WEST VIRGINIA

Charleston, W. Va., May 14.—Pursuant to the call of Governor Cornwell the legislature of West Virginia assembled today in extraordinary session. The purposes of the session, as set forth in the call, will be to consider war measures, questions arising from the Virginia debt suit, legalizing the transfer of more than 200 acres of land in this city to the Federal government for an armor plate plant, and the passage of appropriation bills that failed through deadlock in the regular session and the recent special session.

CIRCUS COMING TO CLEARFIELD

The courageous exploit of Mlle. Mathilda Zira, the petite and daring animal trained with the Cook Bros. circus, which this city will see Thursday, May 24 is escaping from Paris the day after the declaration of war with her troupe of educated forest-born leopards, is one of the many thrilling episodes for which the great European struggle has been the occasion.

Mlle. Zira and her leopards were the top liners at the small but popular Cirque Medrano in the Batignolles district of the French metropolis. The imminence of the war was not realized by the public, and no one thought of escaping from the city. The day after war was declared the government issued an order laying the automobiles, horses, dogs and other "animals of whatsoever description" in the city. While there could be no possible public use for Mlle. Zira's leopards, except for food in case of a siege, the little trainer was notified that the animals could not be removed and must remain at the disposition of the Prefect of Police.

It happened that Mlle. Zira's pets not only represented several years of hard work in training, but they also constituted in normal times a very remunerative source of income, and she decided not to submit to the mandate of the authorities.

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says Glass of Hot Water Before Breakfast Washes Poisons from System

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

The Washington team has been hit hard by his opponents of late. But once he makes the step he will undoubtedly make a few more in the future.

CHIEF WINTER
SPRY AS BOY

Son Tells of Remarkable Change That Overcome Fire Fighter

"The other day I caught father running a race with one of his grandsons," said J. Kenneth Winter, the well known druggist of Hughesville, near Williamsport, regarding the improvement in the health of his father, James S. Winter, of Second street, Hughesville, chief of the Hughesville Fire Department.

"His stomach had been troubling him for some time. He had no appetite and could not digest his food. His heart seemed to be weak and he could hardly get his breath. He could only walk a block or two and would then stop and rest. He was very weak and run down generally. His kidneys, too, were troubling him quite a bit."

"I saw 'Tanlac' advertised in the newspapers, but I did not believe it would help him, but he finally decided to try it. It proved of great benefit to him. His stomach is in good order again and he can eat whatever he pleases. He isn't troubled with shortness of breath and can get around and perform his work as usual."

"Tanlac has helped my father a good deal, and he is all very much pleased about it. It has done for him."

Tanlac is now here by Woodward & McPherson.

QUIT MEAT WHEN
KIDNEYS BOTHER

Take a glass of Salts if your Back Hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Girls! Use Lemons!
Make a Bleaching,
Beautifying Cream

The juice of two fresh lemons strained into a bottle containing three ounces of archar white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough red

Present Demand Doubles

VELIE

Output for 1917

We are confronted with an unprecedented demand for the Velie Biltwel Six. Orders received by the Velie Company up to this time require double the number of cars ever built before. The resources of A Mite of Velie Factory will meet this demand. Shipments are being made to all the open ports of the world. In one day recently sixty-five cars were driven away from the factory—each car bought and paid for by a new owner.

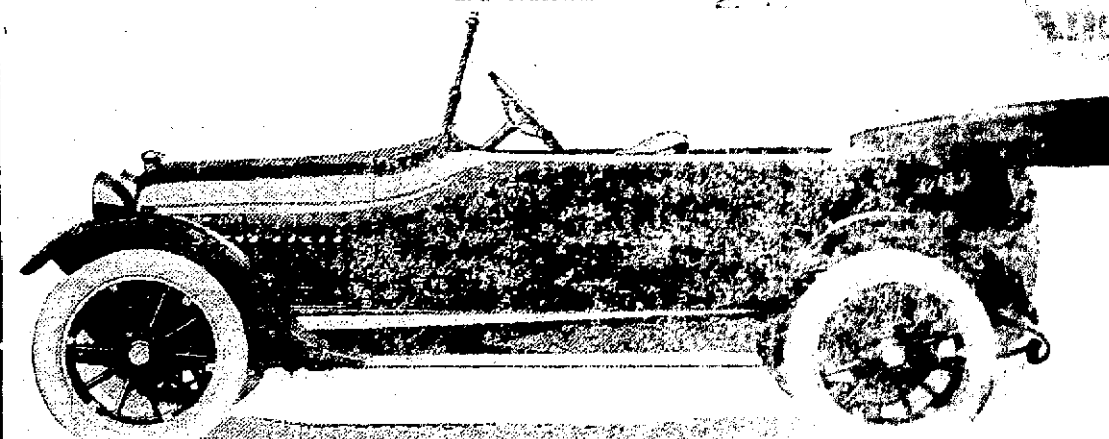

Velie has made more automobile history this past year than any other car regardless of price. From the moment you take a ride in the "Biltwel Six" you are convinced of its worth. Performance reveals power flexibility, luxurious comfort totally unexpected at \$1185 price.

Your Velie for use today and tomorrow means service and satisfaction, which you cannot make up if you wait a month to place your order. Let us show you the eight body styles. Avoid later disappointment by acting now.

World-wide recognition of the Velie Values is responsible for this enormous increase which now insures that every month of 1917 will set a record. Appreciation of the quality of the Velie car of its surpassing beauty of the highgrade features given at a low price, and of the sincerity and honesty of purpose built into every model.

ON THE SCREEN

"THE REVOLT"

Special At The Globe Tomorrow

There is always a battle raging between the real and false in us—that part which keeps us contented in moderate surroundings and fills us with love for all creation, and that other part which eternally labors toward the destruction of good in us. But one day comes the crisis, and that we call "The Revolt."

Those who have to do with the big problems of life and those who are familiar with the battle between sexes know that the revolt will come to all; and when it does, though the baser side sometimes conquers, the world is better for the revolution.

This fact was proven in the life of Anna Biddle, the wonderful little character made famous by Helen Ware in this most successful Broadway production.

"The Revolt" is a big story, and unlike the usual run of plays. It has a punch in every scene, excellent photography and splendid night effects that are extraordinary in the photo drama.

Swedish Throne Considered To Be In Danger Of Being Overthrown

Copenhagen, May 14.—Most disquieting is the news brought back from Sweden by members of King Christian's suite who accompanied the Danish ruler on his recent visit to Stockholm to confer with King Gustaf. In private conversation some of these recent visitors to the Swedish capital have painted a most gloomy picture of the present condition of social and political unrest in the northern kingdom. The situation, in their opinion, is much more critical than the press dispatches have indicated. So critical has the situation become, in fact, that there is open speculation on the possibility of King Gustaf being deprived of his throne, and this at no very remote date.

The unrest in Sweden is deep-seated and has been gathering force for many years. To begin with, the Swedish people are naturally among the most democratic people in the world. That the royal institution has been allowed to exist in the country is due largely to the personal popularity enjoyed by the late King Oscar and the further fact that neither he nor the present occupant of the throne ever made any serious attempt to exercise the royal prerogatives in a manner contrary to the wish of the people.

The tide of democracy has scintillated its steady rise, however, and now it threatens to engulf the throne itself. The war has imposed many hardships upon the Swedish people and as a

consequence the arguments of the Social-Democrats in favor of a political overturn have fallen into willing ears. The success of the democratic movement in Russia also has made a profound impression upon the people of Sweden.

Another important factor in the situation is the lack of popularity of the present King, Gustaf is in favor neither with the classes or the masses. He is entirely lacking in those qualities which made his father, the late King Oscar, beloved of his people, while the ancient nobility of Sweden has never looked with any degree of deference upon the royal family. The King is only a great-grandson of the Gascon law clerk Bernadotte and Denise Clary, the daughter of a French wine merchant, and the Baden dynasty, from which Queen Victoria comes, in its present line sprang from the union of the last Zaehring with one of his low-born mistresses. On the other hand, the members of the Swedish nobility—at least the majority of them—can trace their descent back for a dozen generations. They therefore have always refused to take seriously the claims of the present Swedish royal family to regal prerogatives. Nor have they ever forgotten that Marshal Bernadotte, the founder of the dynasty, owed his rise in life to the massacres of the French aristocracy and royal family, and that at his death the words, "Death to the tyrants and to the aristocrats," were found tattooed on his arm.

Gustaf is known as a man of energetic character and a predilection for militarism. It is not considered likely that he would follow the example of the late Czar of Russia in meekly yielding his throne without a struggle. The Swedish ruler believes, like Emperor William, with whom he has always been on terms of intimate friendship, that the mailed fist is preferable to the velvet glove in solving difficulties. Some years ago, when he was still Crown Prince, he availed himself of the opportunity of some public meetings in Stockholm openly to express his opinion that he did not approve of his father's tendency to temporize with opponents instead of attacking and crushing them.

Gustaf is not looked upon as a statesman of very great abilities, nor can he lay claim to intellectual achievements in any approaching those of his father. Instead of being a theorist and a dreamer, he is substantially a man of action, all the romance he may have inherited having been stamped out of his nature when he was forced as a young man to break off the engagement which he had made to marry the daughter of a Swedish country pastor, with whom he had become infatuated, and to wed, not for love, but merely for state and dynastic reasons, the by no means attractive daughter of the Grand Duke of Baden.

The policy he has followed since coming to the throne indicates that Gustaf possesses a strong will and a high sense of justice, but he certainly lacks that peculiar attractiveness which so much distinguished his father and which undoubtedly would stand him in good stead at the present crisis when, according to most reliable information, he is in imminent danger of being forced to join the growing list of kings without thrones.

RURAL MEMBERS ARE STIRRED UP

Working on Farmers' Needs and Some New Legislation.

PLAN CHANGE IN DEPARTMENT

Agricultural Representatives Endorse Scheme Which Would Abolish Commission and Create instead a Farmers' Board With Sweeping Powers. Proposed Fish Code in Senate.

Harrisburg, Pa., May 15.—A statewide census to determine the farmers' needs and the resources of cities and other populous places has been started. The object is to obtain the highest possible percentage of efficiency in these critical days of scarce food supply.

The plans for the census have been arranged at a conference of the governor, representatives of the departments of labor and agriculture, John C. Frazer, vice chairman of the school mobilization committee, and a committee of agricultural members of the house.

Definite information will be obtained as to the area of the more than 255,000 farms of the state, their present crops, and what percentage of increase could be obtained if adequate labor were supplied.

The census also includes the canneries, and information will be obtained as to what their maximum capacity will be if the necessary labor is obtained.

At an enthusiastic meeting of the rural members of the legislature one day last week a majority decided to raise a protest against the Whitaker bill, placing the appointment of a secretary of agriculture in the hands of the agriculture commission. Instead they will press for the plan incorporated in the bills introduced in the senate by Schantz, of Lehigh, and in the house by Lohr, of Somerset.

Would Rip Out Commission.

This Schantz-Lohr plan would rip out the agriculture commission altogether and create a state board of agriculture to be made up of one representative from each of the sixty-seven counties. This representative would be chosen at a convention of members of the Pomona-Grange and of agricultural societies. To be an agriculture society within the meaning of the act would mean any farmers' organization raising at least \$50 for the promotion of agriculture.

The state board of agriculture, made up of the sixty-seven representatives from the counties of the state, would in turn, elect an executive committee of seven. This executive committee is empowered by the bill to appoint the secretary of agriculture, dairy and food commissioner, economic zoologist and other attaches of the agriculture department.

The rural members decided to oppose the Walter bill giving the state right of eminent domain to take quarry products for roads on the ground that it is too broad in its powers.

The league will favor the bill to require men to show tax receipts before being allowed to take out hunters' licenses and those for county boards of assessors and for simpler means of collection of taxes. The Siglas town ship code bill was commended.

New Fish Code.

The new fish code passed by the house with little opposition is expected to go through the senate without a great deal of trouble. It has been amended to meet the views of the sportsmen's associations in the matter of preventing the stocking of private streams closed to the public with fish, furnished by the state hatchery and their objection to the commission of this provision has been overcome.

The code has nothing to do with the fishermen's license bill, which is a separate measure, but governs the fishing in the inland waters of the commonwealth regulating the seasons, size and creel limits and devices that may be used and codifies the existing laws on these subjects. It takes effect January 1, 1918.

The code forbids the taking of fish in the inland waters in any other way than with rod, hook and line, excepting in tidal waters and in the lower Susquehanna. It forbids the sale of bass, it wipes out the spear net and gill; it confines the number of hooks to be attached to a line, to three; it reduces the trout limit to twenty-five per day; it opens the bass season July 1 instead of June 15. It regulates strictly the ratcheting of bait fish and effects many other reforms that have been long advocated by those desirous of improving the fishing conditions in the inland waters.

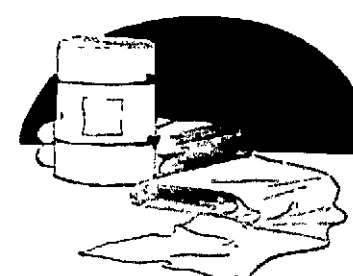

The house has defeated the Maurer bill, authorizing second and third class cities to engage in farming, including dairy farming, and selling the productions to citizens at cost. This was the first bill presented by the lone Socialist member, Representative Maurer, of Berks, to get as far as final passage.

The Beyer bill, providing that one-half of the salary of any county, municipal or school district employee who enlists in the army or navy, shall go to the employee's dependents and one-half to the person who is appointed to fill his place, has passed the senate finally and goes to the governor.

High, of the Yanks, stands low in the list of American league batsmen and Bigbee of Pittsburgh owns a small batting mark in the National league.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre at Once

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhance its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use

preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair disappears, after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

There is always a battle raging be-
tween the real and false in us—that
part which keeps us contented in
moderate surroundings and fills us
with love for all creation, and that
other part which eternally labors to-
ward the destruction of good in us.
But one day comes the crisis, and
that we call "The Revolt."

Those who have to do with the big
problems of life and those who are
familiar with the battle between sexes
know that the revolt will come to all;
and when it does, though the baser
side sometimes conquers, the world is
better for the revolution.

This fact was proven in the life of
Anna Biddle, the wonderful little
character made famous by Helen
Ware in this most successful Broad-

"The Revolt" is a big story, and un-
like the usual run of plays. It has a
punch in every scene, excellent pho-

that are extraordinary in the photo

Swedish Throne Considered To Be In Danger Of Being Overthrown

Copenhagen, May 14.—Most dis-
quieting is the news brought back
from Sweden by members of King
Christian's suite who accompanied the
Danish ruler on his recent visit to
Stockholm to confer with King Gus-
taf. In private conversation some of
these recent visitors to the Swedish
capital have painted a most gloomy
picture of the present condition of so-
cial and political unrest in the north-
ern kingdom. The situation, in their
opinion, is much more critical than the
press dispatches have indicated. So
critical has the situation become, in
fact, that there is open speculation on
the possibility of King Gustaf being
deprived of his throne, and this at no
very remote date.

The unrest in Sweden is deep-seated
and has been gathering force for
many years. To begin with,
the Swedish people are naturally
among the most democratic people in
the world. That the royal institution
has been allowed to exist in the coun-
try is due largely to the personal
popularity enjoyed by the late King
Oscar and the further fact that nei-
ther he nor the present occupant of the
throne ever made any serious attempt
to exercise the royal prerogatives in a
manner contrary to the wish of the
people.

The tide of democracy has contin-
ued its steady rise, however, and now it
threatens to engulf the throne itself.
The war has imposed many hardships
upon the Swedish people and as a
result, the royal family has been
forced to live in a manner which is
entirely at variance with the wishes of
the people.

Rodgers, in Bellefonte, returned home
last evening.

Mrs. Aggar Bloom of Curwensville,
spent yesterday and today with her
nephew Alfred Graham and family on
West Market street.

Miss Harriet Shope, of Surveyor,
spent yesterday shopping in town.

consequence the arguments of the
Social-Democrats in favor of a politi-
cal overturn have fallen into willing
ears. The success of the democratic
movement in Russia also has made a
profound impression upon the people
of Sweden.

Another important factor in the sit-
uation is the lack of popularity of the
present King, Gustaf, is in favor
neither with the classes or the masses.
He is entirely lacking in those quali-
ties which made his father, the late
King Oscar, beloved of his people,
while the ancient nobility of Sweden
has never looked with any degree of
deference upon the royal family. The
King is only a great-grandson of the
Gascon law clerk Bernadotte and De-
siree Clary, the daughter of a French
wine merchant, and the Baden dynas-
ty, from which Queen Victoria comes,
in its present line sprang from the
union of the last Zachringer with one
of his low-born mistresses. On the
other hand, the members of the Swed-
ish nobility—at least the majority of
them—can trace their descent back
for a dozen generations. They there-
fore have always refused to take seri-
ously the claims of the present Swed-
ish royal family to regal prerogatives.
Nor have they ever forgotten that
Marshal Bernadotte, the founder of
the dynasty, owed his rise in life to
the revolution, that he had taken part
in the massacres of the French aris-
tocracy and royal family, and that at
his death the words, "Death to the ty-
rants and to the aristocrats," were
found tattooed on his arm.

Gustaf is known as a man of ener-
getic character and a predilection for
militarism. It is not considered likely
that he would follow the example of
the late Czar of Russia in meekly
yielding his throne without a struggle.
The Swedish ruler believes, like Em-
peror William, with whom he has al-
ways been on terms of intimate
friendship, that the mailed fist is pre-
ferable to the velvet glove in solving
difficulties. Some years ago, when he
was still Crown Prince, he availed
himself of the opportunity of some
public meetings in Stockholm openly
to express his opinion that he did not
approve of his father's tendency to
temporize with opponents instead of
attacking and crushing them.

Gustaf is not looked upon as a
statesman of very great abilities, nor
can he lay claim to intellectual
achievements in any approaching
those of his father. Instead of being
a theorist and a dreamer, he is sub-
stantially a man of action, all the
romance he may have inherited hav-
ing been stamped out of his nature
when he was forced as a young man
to break off the engagement which he
had made to marry the daughter of a
Swedish country pastor, with whom
he had become infatuated, and to wed,
not for love, but merely for state and
dynastic reasons, the by no means at-
tractive daughter of the Grand Duke
of Baden.

The policy he has followed since
coming to the throne indicates that
Gustaf possesses a strong will and a
high sense of justice, but he certain-
ly lacks that peculiar attractiveness
which so much distinguished his father
and which undoubtedly would
stand him in good stead at the pres-
ent crisis when, according to most re-
liable information, he is in imminent
danger of being forced to join the
growing list of kings without thrones.

RURAL MEMBERS ARE STIRRED UP

Working on Farmers' Needs
and Some New Legislation.

PLAN CHANGE IN DEPARTMENT

Agricultural Representatives Endorse
Scheme Which Would Abolish Com-
mission and Create Instead a Farm-
ers' Board With Sweeping Powers.
Proposed Fish Code in Senate.

Harrisburg, Pa., May 15.—A state-
wide census to determine the farmers'
needs and the resources of cities and
other populous places has been start-
ed. The object is to obtain the high-
est possible percentage of efficiency in
these critical days of scarce food sup-
ply.

The plans for the census have been
arranged at a conference of the gov-
ernor, representatives of the depart-
ments of labor and agriculture, John
C. Trazee, vice chairman of the school
mobilization committee, and a com-
mittee of agricultural members of the
house.

Definite information will be obtained
as to the area of the more than 225,
000 farms of the state, their present
crops, and what percentage of increase
could be obtained if adequate labor
were supplied.

The census also includes the can-
neries, and information will be obtain-
ed as to what their maximum capacity
will be if the necessary labor is ob-
tained.

At an enthusiastic meeting of the
rural members of the legislature on
day last week a majority decided to
raise a protest against the Whitke-
bill, placing the appointment of a
secretary of agriculture in the hands
of the agriculture commission. In-
stead they will press for the plan in-
corporated in the bills introduced in
the senate by Schantz, of Lehigh, and
in the house by Lohr, of Somerset.

Would Rip Out Commission.

This Schantz-Lohr plan would rip
out the agriculture commission alto-
gether and create a state board of
agriculture to be made up of one rep-
resentative from each of the sixty-
seven counties. This representative
would be chosen at a convention of
members of the Pomona Grange and
of agricultural societies. To be an
agriculture society within the mean-
ing of the act would mean any farm-
ers' organization raising at least \$50
for the promotion of agriculture.

The state board of agriculture, made
up of the sixty-seven representatives
from the counties of the state, would,
in turn, elect an executive committee
of seven. This executive committee
is empowered by the bill to appoint
the secretary of agriculture, dairy an-
d food commissioner, economic zoologist
and other attaches of the agriculture
department.

The rural members decided to op-
pose the Walter bill giving the state
right of eminent domain to take quar-
ry products for roads on the ground
that it is too broad in its powers.

The league will favor the bill to re-
quire men to show tax receipts before
being allowed to take out hunters
licenses and those for county boards
of assessors and for steeper means of
collection of taxes. The Siggis town-
ship code bill was commended.

New Fish Code.

The new fish code passed by the
house with little opposition is expect-
ed to go through the senate without a
great deal of trouble. It has been
amended to meet the views of the
sportsmen's associations in the mat-
ter of preventing the stocking of pri-
vate streams closed to the public with
fish, furnished by the state hatcheries
and their objection to the emission
of this provision has been overcome.

The code has nothing to do with the
fishermen's license bill, which is a
separate measure, but governs the
fishing in the inland waters of the
commonwealth regulating the season,
size and creel limits and devices that
may be used and codifies the exist-
ing laws on these subjects. It takes effect
January 1, 1918.

The code forbids the taking of fish
in the inland waters in any other way
than with rod, hook and line, except-
ing in tidal waters and in the lower
Susquehanna. It forbids the sale of
bass, it wipes out the spear, net and
zig; it confines the number of hooks to
be attached to a line, to three. It
reduces the trout limit to twenty-five
per day; it opens the bass season July
1 instead of June 15. It regulates
strictly the catching of bait fish and
effects many other reforms that have
been long advocated by those desirous
of improving the fishing conditions in
the inland waters.

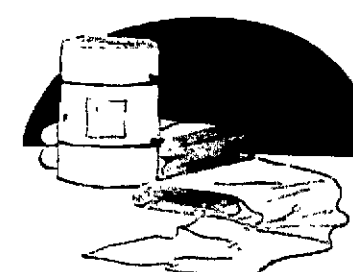

The house has defeated the Maurer
bill, authorizing second and third-
class cities to engage in farming, in-
cluding dairy farming, and selling the
productions to citizens at cost. This
was the first bill presented by the lone
Socialist member, Representative Mau-
rer, of Berks, to get as far as final
passage.

The Beyer bill, providing that one
half of the salary of any convict, mi-
nicipal or school district employe
who enlists in the army or navy, shall
go to the employe's dependents and
one-half to the person who is appoint-
ed to fill his place, has passed the
senate finally and goes to the gover-
nor.

More Instructions On Conscription Day Are Issued

War Department Makes It Plain That All Must Register and That It Must All Be Done On The Day Set

PROVISIONS MADE FOR OUT-OF-TOWNERS

Washington, May 15.—The war department today made the following announcements regarding the registration of citizens liable to draft:

The war department wishes to impress upon the people that there is only one day for registration. All males between the designated ages must register on the day set. The fact that five days were allowed for the placing of the necessary blank forms in the hands of registrars appears to have misled some headline writers. One day only—the day fixed in the president's proclamation—will be devoted to registration.

"The war department is gratified by the spontaneous offers of uncompensated assistance in carrying out the work of registration. "One father in offering to serve as registrar writes: 'I have two sons in the guard and one in the regular army but I want to do my own little bit.' This is typical of hundreds of letters. All such offers properly should be made to the governors who are the heads of the registration machinery of their respective states.

"It should be clearly understood that no male resident of the United States between the designated ages is excused from registration unless he is already in the military or naval service of the United States; that is, a member of the regular army or navy, the marine corps, coast guard service, or that part of the national guard now actually in the federal service. Registration is distinct from selective service. Registration is a necessary preliminary to the later process of selection.

"It is useless to ask registrars to exclude any one from registration. The registrar has no such power. No one can suspend the law requiring all to register.

"It is important that all shall understand the significance of registration and it is hoped that the day will be approached in the spirit with which the government has appointed it. Democracy is its essence. No one can absent himself, nor can the well-to-do man hire another to represent him on the occasion. The country's manhood will present itself on this day and by so doing will say in effect: 'Here am I. Take me.'

"Not only has the individual citizen of the country made a remarkable response to the registration call, but the states through their official heads have indicated such zeal that there is great rivalry among some of the commonwealths for the honor of making the first complete registration returns.

"Many questions are asked daily at the war department concerning the registration of traveling men and other absentees. On the sixth day after the date of the President's proclamation anyone subject to registration who expects to be absent from his home on registration day should go to the clerk of the county where he may be staying. If he is in a city of over 30,000 population the city clerk is the official to whom to apply. The absentee will be told how to register and a registration card will be filled out. This card must be mailed by the absentee so as to reach the registrar of his home precinct by registration day. The clerk to whom the absentee applies is not empowered to issue the absentee a registration certificate. This is issued by the registrar in his home precinct.

Roosevelt Division Amendment Is Written Into The Army Bill

By Robert J. Bender

Washington, May 15.—The Roosevelt division amendment is now a clause in the selective service army bill. House and Senate conferences today wrote into the measure the amendment offered in the Senate by Senator Harding of Ohio, which stands but it was pointed out that there is nothing in the bill which will compel the President to raise the volunteer division and he can do so if he desires.

Germans Start Counter Offensive On All Lines

May Develop Into General Offensive Along Entire Battle Line.

London, May 15.—The Germans launched a concerted counter offensive on both the French and British fronts of such force as to suggest almost a general counter offensive movement. The attacks were repulsed for the most part but the French and British were compelled to relinquish small trenches in their newly gained positions on the Hindenburg line, particularly around Bellecourt. There was heavy fighting followed by an attacking wave.

To the north of the village Hall, reported that the British advance posts "fell back a short distance." Other attacks were reported by the French war office near the village of Billancourt north of Crayonne east of Hill 108 Northeast of Duherney. The attacks were repulsed. All the German attacks were declared unsuccessful according to the official statement.

High School Girls Will Become Farmers

Bety of Local Lassies Will Raise Onions, Dust and Parasols

Clearfield High school girls do not propose to take a back seat for the High school boys when it comes to doing their "bit" in the first line trench, better known as the back yard garden. That is, some of them don't. To prove the truth of our statement we want to add that Misses Emily Ganulin, Lillian Moore, Mary and Margaret Waterworth, Jean Shaw and Pauline Neff have arranged to take charge of two lots located on the flat along the river near the upper ice house just as soon as the ground can be got in shape for planting and promise to have the banner garden on that side of the river the coming summer.

The girls are simply devouring all available books on gardening and will be fortified with expert knowledge when hostilities begin.

Gen. Petain Will Head French Field Forces

Council of Ministers Makes Many Changes in Army of France

(By United Press) Paris, May 15.—General Petain was today named Generalissimo of the French army with supreme command of the forces in the field. General Foch, one of the heroes of the Marne, was named to succeed Petain as chief of staff. General Nivelle has been appointed commander of French field forces in certain army groups. This sweeping change in the French army was decided upon at a recent session of the council of ministers.

TORPEDO MISSED LINER BALTIC

New York, May 15.—A torpedo fired by a German submarine at the White Star liner Baltic on April 19, missed the big ship about ten feet according to passengers who have arrived in New York.

This was the second attempt on the Baltic in two days. Both were fruitless. The first was made on April 18, and the wake of the torpedo was seen in time to swerve the Baltic from her course. On Thursday the danger was greater and the vessel escaped by a hair's breadth. On neither occasion did the Baltic see the U-boat which fired the torpedo. The survivors are also authority for the news of the sinking of the British steamer Oswald from Pensacola to Liverpool on April 23. There was no warning before the submarine's attack. The senior wireless officer was drowned, including Arthur Ferguson, of Detroit, an American seaman.

Miss Ruth Row is attending camp in Altoona.

MOVEMENT FOR ERECTION OF MEMORIAL

Clearfielders Want to See Suitable Monument, Shaft or Bronze Tablet Dedicated to Our Protectors

SENDS CHECK TO START IT

Clearfield, Pa., May 7, 1917. C. A. Stewart; Editor Clearfield Progress

Dear Sir: Recognizing your valuable paper as being foremost for the advancement of Clearfield and the welfare of the county and having the means at your hands to promote anything for the benefit and uplift of the citizens thereof I desire to make the following suggestion to you, which I hope you will give consideration, and that the results will be obtained goes without question.

The writer, believing that Patriotism in Clearfield county is today at the point where everybody is desirous of doing their "bit" toward showing the true Patriotic spirit, believes now would be the proper time to advocate the erection of a suitable monument to the "Soldiers and Sailors" of Clearfield county, at suitable point which might be chosen by the proper authorities, either in front of the court house or in front of the new high school building.

At this time when many of the patriotic boys of our town are enlisted in defense of Old Glory, as many have done in the past, or whenever the flag was in danger, and when many of us realize it is impossible for us to enlist as in the past war wars, believe we would be showing the patriotic spirit by starting a movement that would be the means of having a monument erected in honor of the "Soldiers and Sailors" and that suitable bronze tablets be used to have the names of each of the adjoining counties have done. The monument recently erected by the citizens of Cambria county in the public square at the county seat would be a fine model for us to copy, and one which would not only be a credit to our county, but would "give honor to whom honor is due."

The writer would suggest that if it should be impossible to raise the funds to put up a suitable monument that bronze slabs be placed on the Clapham street side of the court house.

While the writer is not financially situated so that he can make a large donation toward the movement referred to he knows that we have many men of means in Clearfield county who would be, and to whom he has talked to on the matter, and if your valuable paper will appear to the patriotism of the citizens of the county, knows they will respond.

I would suggest you start a "Roll of Honor" to the "Soldiers and Sailors Monument Fund" publishing from day to day. The writer herewith encloses a small check to start the fund rolling.

Having you will give this matter consideration at this time, hereto be, Very respectfully, CLEARFIELD CITIZEN

Now that the thought of all local American citizens are turning to the men behind the guns in our Uncle Sam's army and navy and we witness the sacrifices being made daily by the young men of our community who patriotically serve home and abroad in defense of our land and our flag and the

President Is Out Of Patience With The Dilatory Action On War Program By Both Houses

What is true of the present condition of affairs has been true during every crisis in American history, and will always be true so long as this nation exists. In recognition of the loyal service in the past our state and nation has seen fit to erect suitable monuments and tablets to properly commemorate the heroic deeds of her soldiers and sailors in arms and as a result the many battlefields of Pennsylvania bear testimony in both marble and bronze to the heroic deeds of the brave sons of the grand old Keystone state.

In addition to these battlefield memorials, as a result of wise legislation, soldiers' monuments occupy the public squares or other prominent points in many of our county seat towns, and on these monuments or in these memorial buildings appear the names of those citizens of the different counties who offered their services to their country in time of need. This roll of honor is thus maintained in order that all who come after them shall know who were prompt to respond when the country needed men and who did "their bit" to maintain our free institutions.

Clearfield county is sadly lacking in this regard and while the matter has been broached several times and a half-hearted start made, we are yet one of the very few remaining larger counties where no fitting testimonial has been reared to our soldiers living and dead.

While not an opportune time to embark on a project such as this, we feel the time is ripe to call the attention of our people to this lack of proper public appreciation with the idea of having a start made now which will result in the accomplishment of what should have been done long ago, when the proper time for such a movement is at hand.

A citizen has offered a subscription toward a suitable soldiers' monument. Could a fund not be started as a subscription, where all may volunteer subscriptions as they feel able to do so, and that fund be kept intact to be available when the movement takes real shape and a monument shall be erected?

The celebrated will case from DuBois, mention of which was made in yesterday's Progress, was decided in favor of the plaintiff, the jury finding from the testimony that although no will has been found it was really in existence at the time of the death of Mrs. Pentz.

Under the terms of the will as testified to by the witnesses, Mrs. Pentz desired to leave her home and furnishings to her two daughters by her second husband, and the balance of her property was then to be divided equally between all her heirs there being several sons and daughters by a previous marriage. Following the testator's death no will was forthcoming and the testimony indicated the belief that same was destroyed after her death.

The case of the George Meikeel estate against the Pennsylvania Railroad company for damages to timber land on Clover run in Bell township due to fire alleged to have been started by sparks from one of the defendant company's locomotives is on trial today.

Miller & Hartwick and A. M. Liveright represent the plaintiff and Murray & O'Loughlin the railroad company.

May Pool Bailey, through her attorney Walter Welch, filed a petition Monday in which she asks for a divorce from her husband, Harry Bailey, to whom she was married in 1915. She alleges cruel and barbarous treatment and non-support.

There will be a meeting of all members of the Red Cross chapter held Friday afternoon May 18th at 2 o'clock in the dining room of the Presbyterian church. Each lady is asked to bring scissors, thimble, needle, tape line and white apron. We hope all the ladies who have joined will come.

Has Called Conference With Leaders Of Both Parties For Tonight When He Will Demand Prompt Action

FOOD CONTROL IS TO BE MAIN SUBJECT

Washington May 15.—President Wilson today decided to apply the whip to Congress. He is said by close advisers to be out of patience with the lagging dragging methods of Congress during the past six weeks.

He is displeased at the injection of wholly extraneous matters into the war legislation which the administration has declared must be put through if America is to aid her allies. The first step will be conferences with leaders of both parties and both houses.

The President's close advisers declare that the President will not mince words with the legislative leaders. President Wilson called for a conference tonight at the White House to discuss a food control program. Secretary Houston with members of the House and Senate agricultural committee will attend. The government intends to secure authority for handling the food situation in the omnibus bill if possible.

The navy department announced that inactivity of Congress has seriously interfered with the navy program, particularly the equipment of submarine chasers.

Secretary Daniels urged Congressman Padgett, chairman of the House naval committee to get quick action on the bill empowering the government to "commandeer" private vessels when exorbitant prices are demanded as it is necessary to carry out the naval plans.

COURT NOTES

Peter Mickler, 34 year old DuBois lad who was either "play hooky" than go to school, was brought before Judge Bell this morning by Truant Officer D. S. Knorr. After hearing the story of the truant officer, Judge Bell gave the boy some fatherly advice and sentenced him to Glen Mills. But the operation of the sentence depends upon Peter himself. If he goes home and attends school regularly and behaves himself he will be alright, but if he fails then Juvenile Officer Leary will take him to Glen Mills.

TUESDAY EVENING, MAY 15, 1917.

They're speeding still.

When in doubt—grab a hoe.

A little bit of sun goes a long way these days.

The man or boy who can find nothing to do today is stone blind.

Another day has passed with no solution of the Caldwell mystery. The authorities, we understand, are making a rigid investigation and it is hoped that no stone will be left unturned in their effort to unravel the mystery of the disappearance of little Arthur Caldwell. The forest and the waters refuse to give him up and it is now time to turn to other channels of investigation. It is a matter of public interest to have the matter cleared up for all time.

The cool weather we have been having will result in our being deceived as to sanitary conditions about the city. One week of warm weather will show up conditions that will be dangerous to the welfare of the community. Manure piles are still uncovered. We have no criticism of our board of health. The health officer is making his rounds and performing his duties but it is doubtful whether all the existing menaces to health will be removed unless drastic action is taken. The time to do it is now. There is absolutely no excuse for the conditions and the Board of Health can do no better than administer the law.

Democrats are rejoicing with Republicans over the House action on the Roosevelt amendment. The action removes the blight of partisan politics at a time when it is so necessary that politics be put to the discard. Politics have played a large part in the deferring of the House and Senate on this matter, but if, in the end, Teddy is allowed to go ahead with his chosen work, the political part in the regrettable incident will be forgotten. It is unfortunate, however, that the delay occurred for T. R.'s greatest use would have been in the stimulus his action would have given recruiting. Conscription minimizes the value of this action now.

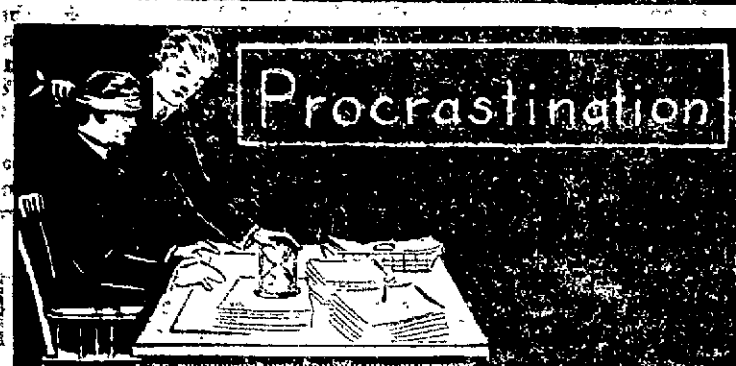

PAY THE FIDDLER

Too often our charity is only in our prayers, and our sympathy while productive of tears and best wishes, is not of the genuine brand that unlocks our pocketbooks and thereby helps material wants in this old materialistic world. Prayers and sympathy are two of the greatest things in the world for comfort of mind and heart but when it comes to the stomach and the warmth of the body there is only one remedy and that is hard cash or what it will buy.

Thus it is with our patriotism. You cannot buy patriotism, but a little cash will go a long way toward demonstrating your patriotism. We recently had a patriotic rally and parade. Hundreds, yes thousands, marched for hours in unpleasant weather to pay homage to Old Glory's proudly waving over the entire city. Men in all walks of life laid aside their business and their work and much good shoe leather was sacrificed to honor the Stars and Stripes.

In spite of these demonstrations it is a noticeable fact that when the collection basket is passed there is a dwindling off in the crowd. We shout ourselves hoarse at the sight of the flag but we howl for mercy when we are called upon to pay taxes to support the nation of which Old Glory is the emblem and as for giving anything voluntarily towards building monuments to departed heroes it is seldom indeed that it is accomplished except by hard work on the part of a body of men.

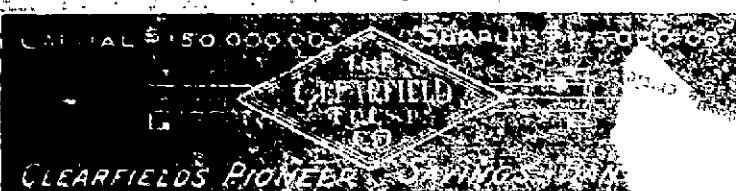

A patriotic gentleman of Clearfield has started a fund

SAFETY, COURTESY AND HELPFULNESS
to each depositor alike, is our Motto.

for the erection of a memorial to our Clearfield county soldiers and sailors and we desire to commend the action. It does not call for large donations and every man, woman and child should add their mite to the fund. The Progress will act as receiver of the fund for only three or four days and then it will be turned over to one of the financial institutions of the city or some other authorized authority to accept it. This form of action should appeal to those who are unable to offer their services in any other way. It really is not a service to Uncle Sam but rather a testimonial to those who have fought our battles in the past and from whom we get encouragement for the future.

Corns Peel Right Off With "Gets-It"

2 Drops and the Corn is a "Goner!"
When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do. Put

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrive! Loosen and Peel Off!

2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off.

There's no other corn remover in the world that acts like "Gets-It." No new discovery has been made in corn removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Clearfield and recommended as the world's best corn remedy by C. W. Dooley, Irwin Drug Co., and Woodward & McPherson.

POSSIBILITY OF WAR BREAD

Chicago, Ill., May 14.—Important recommendations will be made to bakers of the country and suggestions of importance may be made to the government at a special meeting of members of the National association of Master Bakers to be held here this week. S. F. McDonald of Memphis, president of the association, has issued the call for the meeting. The possibility of the 20-cent loaf and the possible introduction of war bread in the United States are among the subjects that are expected to receive the attention of the meeting.

EXTRA SESSION IN WEST VIRGINIA

Charleston, W. Va., May 14.—Pursuant to the call of Governor Cornwell the legislature of West Virginia assembled today in extraordinary session. The purposes of the session, as set forth in the call, will be to consider war measures, questions arising from the Virginia debt suit, legalizing the transfer of more than 200 acres of land in this city to the Federal government for an armor plate plant, and the passage of appropriation bills that failed through deadlock in the regular session and the recent special session.

CIRCUS COMING TO CLEARFIELD

The courageous exploit of Mlle. Mathilda Zira, the petite and daring animal trained with the Cook Bros. circus, which this city will see Thursday, May 24 is escaping from Paris the day after the declaration of war with her troupe of educated forest-born leopards, is one of the many thrilling episodes for which the great European struggle has been the occasion.

Mlle. Zira and her leopards were the top liners at the small but popular Cirque Medrano in the Batignolles district of the French metropolis. The imminence of the war was not realized by the public, and no one thought of escaping from the city. The day after war was declared the government issued an order laying the automobiles, horses, dogs and other "animals of whatsoever description" in the city. While there could be no possible public use for Mlle. Zira's leopards, except for food in case of a siege, the little trainer was notified that the animals could not be removed and must remain at the disposition of the Prefect of Police.

It happened that Mlle. Zira's pets not only represented several years of hard work in training, but they also constituted in normal times a very remunerative source of income, and she decided not to submit to the mandate of the authorities.

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says Glass of Hot Water Before Breakfast Washes Poisons from System

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

The Washington team has been hit hard by his opponents of late. But once he makes the step he will undoubtedly make a few more in the future.

SPRY AS BOY

Son Tells of Remarkable Change That Overcome Fire Fighter

"The other day I caught father running a race with one of his grandsons," said J. Kenneth Winter, the well known druggist of Hughesville, near Williamsport, regarding the improvement in the health of his father, James S. Winter, of Second street, Hughesville, chief of the Hughesville Fire Department.

"His stomach had been troubling him for some time. He had no appetite and could not digest his food. His heart seemed to be weak and he could hardly get his breath. He could only walk a block or two and would then stop and rest. He was very weak and run down generally. His kidneys, too, were troubling him quite a bit."

"I saw Tanlac advertised in the newspapers, but I did not believe it would help him, but he finally decided to try it. It proved of great benefit to him. His stomach is in good order again and he can eat whatever he pleases. He isn't troubled with shortness of breath and can get around and perform his work as usual."

"Tancal has helped my father a good deal, and he is all very much pleased about it. It has done for him."

Tancal is now here by Woodward & McPherson.

QUIT MEAT WHEN
KIDNEYS BOTHER

Take a glass of Salts if your Back Hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Girls! Use Lemons!

Make a Bleaching,

Beautifying Cream

The juice of two fresh lemons strained into a bottle containing three ounces of archar white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams.

Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months.

Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough

ARE OFF TO ENLIST

Harry Meise left last evening for Columbus, Ohio, when he expects to enlist in the United States army at Columbus barracks.

Raymond Bowman, of East End, who enlisted at DuBois last week, returned home yesterday from Fort Slocum, where he failed to pass the final physical examination.

Forrest Root and Elmer Cole were two more Clearfield boys who went to DuBois on the 11:44 train this morning for the purpose of enlisting in the army.

Ferd Mignot and Harry Davis have offered their services to Uncle Sam as ambulance or truck drivers and repair men and expect a call for enlistment at any time now.

James Ball, the 15 year old son of Mr. and Mrs. Frank Ball, of Hillsdale, went to DuBois Monday and enlisted in the army. He is one of the youngest patriots to respond to Uncle Sam's call from this section.

John Cooteret, William Rees, G. Guy Maines, G. Dewey Benton, I. Clark Lewis, Ernest M. Mulholland and Martin P. Brantner, made up a contingent of Karthaus young men, who registered with Postmaster Barclay before going to DuBois to enlist in Uncle Sam's service.

Present Demand Doubles

VELIE

Output for 1917

We are confronted with an unprecedented demand for the Velie Eight. Orders received by the Velie Company up to this time require double the number of cars ever built before. The resources of A Mite of Velie Factory will meet this demand. Shipments are being made to all the open ports of the world. In one day recently sixty-five cars were driven away from the factory—each car bought and paid for by a new owner.

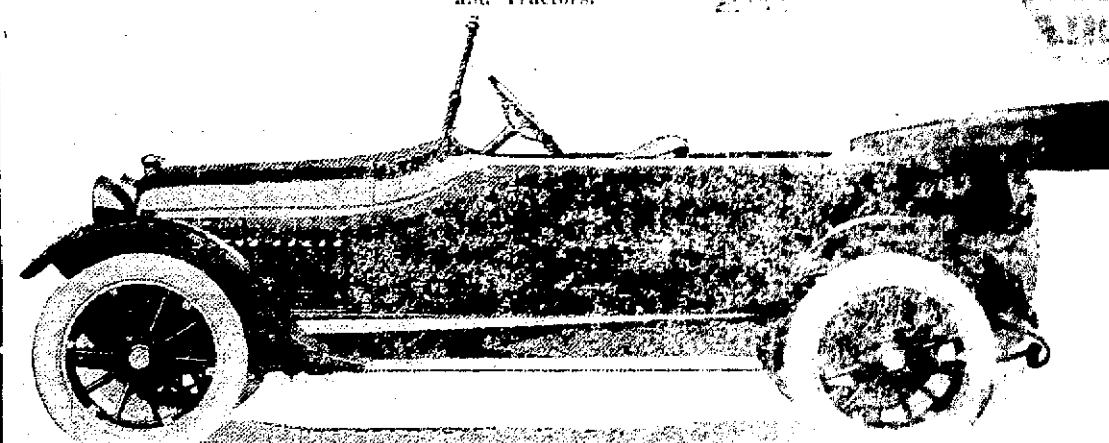

Velie has made more automobile history this past year than any other car regardless of price. From the moment you take a ride in the "Eight Six" you are convinced of its worth. Performance reveals power flexibility, luxurious comfort totally unexpected at \$1185 price.

Your Velie for use today and tomorrow means service and satisfaction, which you cannot make up if you wait a month to place your order. Let us show you the eight body styles. Avoid later disappointment by acting now.

World-wide recognition of the Velie Values is responsible for this enormous increase which now insures that every month of 1917 will set a record. Appreciation of the quality of the Velie car of its surpassing beauty of the highgrade features given at a low price, and of the sincerity and honesty of purpose built into every model.

Swedish Throne Considered To Be In Danger Of Being Overthrown

Copenhagen, May 14.—Most disquieting is the news brought back from Sweden by members of King Christian's suite who accompanied the Danish ruler on his recent visit to Stockholm to confer with King Gustaf. In private conversation some of these recent visitors to the Swedish capital have painted a most gloomy picture of the present condition of social and political unrest in the northern kingdom. The situation, in their opinion, is much more critical than the press dispatches have indicated. So critical has the situation become, in fact, that there is open speculation on the possibility of King Gustaf being deprived of his throne, and this at no very remote date.

The unrest in Sweden is deep-seated and has been gathering force for many years. To begin with, the Swedish people are naturally among the most democratic people in the world. That the royal institution has been allowed to exist in the country is due largely to the personal popularity enjoyed by the late King Oscar and the further fact that neither he nor the present occupant of the throne ever made any serious attempt to exercise the royal prerogatives in a manner contrary to the wish of the people.

The tide of democracy has scintillated its steady rise, however, and now it threatens to engulf the throne itself. The war has imposed many hardships upon the Swedish people and as a

consequence the arguments of the Social-Democrats in favor of a political overturn have fallen into willing ears. The success of the democratic movement in Russia also has made a profound impression upon the people of Sweden.

Another important factor in the situation is the lack of popularity of the present King, Gustaf is in favor neither with the classes or the masses. He is entirely lacking in those qualities which made his father, the late King Oscar, beloved of his people, while the ancient nobility of Sweden has never looked with any degree of deference upon the royal family. The King is only a great-grandson of the Gascon law clerk Bernadotte and Desiree Clary, the daughter of a French wine merchant, and the Baden dynasty, from which Queen Victoria comes, in its present line sprang from the union of the last Zaehring with one of his low-born mistresses. On the other hand, the members of the Swedish nobility—at least the majority of them—can trace their descent back for a dozen generations. They therefore have always refused to take seriously the claims of the present Swedish royal family to regal prerogatives. Nor have they ever forgotten that Marshal Bernadotte, the founder of the dynasty, owed his rise in life to the massacres of the French aristocracy and royal family, and that at his death the words, "Death to the tyrants and to the aristocrats," were found tattooed on his arm.

Gustaf is known as a man of energetic character and a predilection for militarism. It is not considered likely that he would follow the example of the late Czar of Russia in meekly yielding his throne without a struggle. The Swedish ruler believes, like Emperor William, with whom he has always been on terms of intimate friendship, that the mailed fist is preferable to the velvet glove in solving difficulties. Some years ago, when he was still Crown Prince, he availed himself of the opportunity of some public meetings in Stockholm openly to express his opinion that he did not approve of his father's tendency to temporize with opponents instead of attacking and crushing them.

Gustaf is not looked upon as a statesman of very great abilities, nor can he lay claim to intellectual achievements in any approaching those of his father. Instead of being a theorist and a dreamer, he is substantially a man of action, all the romance he may have inherited having been stamped out of his nature when he was forced as a young man to break off the engagement which he had made to marry the daughter of a Swedish country pastor, with whom he had become infatuated, and to wed, not for love, but merely for state and dynastic reasons, the by no means attractive daughter of the Grand Duke of Baden.

The policy he has followed since coming to the throne indicates that Gustaf possesses a strong will and a high sense of justice, but he certainly lacks that peculiar attractiveness which so much distinguished his father and which undoubtedly would stand him in good stead at the present crisis when, according to most reliable information, he is in imminent danger of being forced to join the growing list of kings without thrones.

RURAL MEMBERS ARE STIRRED UP

Working on Farmers' Needs and Some New Legislation.

PLAN CHANGE IN DEPARTMENT

Agricultural Representatives Endorse Scheme Which Would Abolish Commission and Create instead a Farmers' Board With Sweeping Powers. Proposed Fish Code in Senate.

Harrisburg, Pa., May 15.—A statewide census to determine the farmers' needs and the resources of cities and other populous places has been started. The object is to obtain the highest possible percentage of efficiency in these critical days of scarce food supply.

The plans for the census have been arranged at a conference of the governor, representatives of the departments of labor and agriculture, John C. Frazer, vice chairman of the school mobilization committee, and a committee of agricultural members of the house.

Definite information will be obtained as to the area of the more than 255,000 farms of the state, their present crops, and what percentage of increase could be obtained if adequate labor were supplied.

The census also includes the canneries, and information will be obtained as to what their maximum capacity will be if the necessary labor is obtained.

At an enthusiastic meeting of the rural members of the legislature one day last week a majority decided to raise a protest against the Whitaker bill, placing the appointment of a secretary of agriculture in the hands of the agriculture commission. Instead they will press for the plan incorporated in the bills introduced in the senate by Schantz, of Lehigh, and in the house by Lohr, of Somerset.

Would Rip Out Commission.

This Schantz-Lohr plan would rip out the agriculture commission altogether and create a state board of agriculture to be made up of one representative from each of the sixty-seven counties. This representative would be chosen at a convention of members of the Pomona-Grange and of agricultural societies. To be an agriculture society within the meaning of the act would mean any farmers' organization raising at least \$50 for the promotion of agriculture.

The state board of agriculture, made up of the sixty-seven representatives from the counties of the state, would in turn, elect an executive committee of seven. This executive committee is empowered by the bill to appoint the secretary of agriculture, dairy and food commissioner, economic zoologist and other attaches of the agriculture department.

The rural members decided to oppose the Walter bill giving the state right of eminent domain to take quarry products for roads on the ground that it is too broad in its powers.

The league will favor the bill to require men to show tax receipts before being allowed to take out hunters' licenses and those for county boards of assessors and for simpler means of collection of taxes. The Siglas town ship code bill was commended.

New Fish Code.

The new fish code passed by the house with little opposition is expected to go through the senate without a great deal of trouble. It has been amended to meet the views of the sportsmen's associations in the matter of preventing the stocking of private streams closed to the public with fish, furnished by the state hatcheries and their objection to the commission of this provision has been overcome.

The code has nothing to do with the fishermen's license bill, which is a separate measure, but governs the fishing in the inland waters of the commonwealth regulating the seasons, size and creel limits and devices that may be used and codifies the existing laws on these subjects. It takes effect January 1, 1918.

The code forbids the taking of fish in the inland waters in any other way than with rod, hook and line, excepting in tidal waters and in the lower Susquehanna. It forbids the sale of bass, it wipes out the spear net and gill; it confines the number of hooks to be attached to a line, to three; it reduces the trout limit to twenty-five per day; it opens the bass season July 1 instead of June 15. It regulates strictly the ratcheting of bait fish and effects many other reforms that have been long advocated by those desirous of improving the fishing conditions in the inland waters.

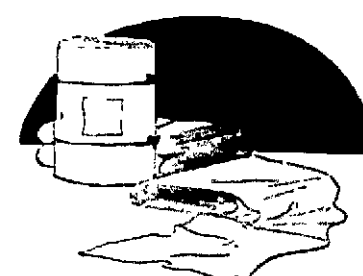

The house has defeated the Maurer bill, authorizing second and third class cities to engage in farming, including dairy farming, and selling the productions to citizens at cost. This was the first bill presented by the lone Socialist member, Representative Maurer, of Berks, to get as far as final passage.

The Beyer bill, providing that one-half of the salary of any county, municipal or school district employee who enlists in the army or navy, shall go to the employee's dependents and one-half to the person who is appointed to fill his place, has passed the senate finally and goes to the governor.

High, of the Yanks, stands low in the list of American league batsmen and Bigbee of Pittsburgh owns a small batting mark in the National league.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre at Once

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhance its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use

preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair disappears, after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Swedish Throne Considered To Be In Danger Of Being Overthrown

Copenhagen, May 14.—Most dis-
quieting is the news brought back
from Sweden by members of King
Christian's suite who accompanied the
Danish ruler on his recent visit to
Stockholm to confer with King Gus-
taf. In private conversation some of
these recent visitors to the Swedish
capital have painted a most gloomy
picture of the present condition of so-
cial and political unrest in the north-
ern kingdom. The situation, in their
opinion, is much more critical than the
press dispatches have indicated. So
critical has the situation become, in
fact, that there is open speculation on
the possibility of King Gustaf being
deprived of his throne, and this at no
very remote date.

The unrest in Sweden is deep-seated
and has been gathering force for
many years. To begin with, the
Swedish people are naturally among
the most democratic people in the
world. That the royal institution has
been allowed to exist in the country
is due largely to the personal
popularity enjoyed by the late King
Oscar and the further fact that nei-
ther he nor the present occupant of the
throne ever made any serious attempt
to exercise the royal prerogatives in a
manner contrary to the wish of the
people.

The tide of democracy has continued
its steady rise, however, and now it
threatens to engulf the throne itself.
The war has imposed many hardships
upon the Swedish people and as a
result, the people are more determined
than ever to maintain their democratic
principles.

Rodgers, in Bellefonte, returned home
last evening.

Mrs. Aggar Bloom of Curwensville,
spent yesterday and today with her
nephew Alfred Graham and family on
West Market street.

Miss Harriet Shope, of Surveyor,
spent yesterday shopping in town.

consequence the arguments of the
Social-Democrats in favor of a politi-
cal overturn have fallen into willing
ears. The success of the democratic
movement in Russia also has made a
profound impression upon the people
of Sweden.

Another important factor in the sit-
uation is the lack of popularity of the
present King, Gustaf is in favor
neither with the classes or the masses.
He is entirely lacking in those quali-
ties which made his father, the late
King Oscar, beloved of his people,
while the ancient nobility of Sweden
has never looked with any degree of
deference upon the royal family. The
King is only a great-grandson of the
Gascon law clerk Bernadotte and De-
siree Clary, the daughter of a French
wine merchant, and the Baden dynasty,
from which Queen Victoria comes,
in its present line sprang from the
union of the last Zachringer with one
of his low-born mistresses. On the
other hand, the members of the Swed-
ish nobility—at least the majority of
them—can trace their descent back
for a dozen generations. They there-
fore have always refused to take seri-
ously the claims of the present Swed-
ish royal family to regal prerogatives.
Nor have they ever forgotten that
Marshal Bernadotte, the founder of
the dynasty, owed his rise in life to
the revolution, that he had taken part
in the massacres of the French aris-
tocracy and royal family, and that at
his death the words, "Death to the ty-
rants and to the aristocrats," were
found tattooed on his arm.

Gustaf is known as a man of ener-
getic character and a predilection for
militarism. It is not considered likely
that he would follow the example of
the late Czar of Russia in meekly
yielding his throne without a struggle.
The Swedish ruler believes, like Em-
peror William, with whom he has al-
ways been on terms of intimate
friendship, that the mailed fist is pre-
ferable to the velvet glove in solving
difficulties. Some years ago, when he
was still Crown Prince, he availed
himself of the opportunity of some
public meetings in Stockholm openly
to express his opinion that he did not
approve of his father's tendency to
temporize with opponents instead of
attacking and crushing them.

Gustaf is not looked upon as a
statesman of very great abilities, nor
can he lay claim to intellectual
achievements in any approaching
those of his father. Instead of being
a theorist and a dreamer, he is sub-
stantially a man of action, all the
romance he may have inherited hav-
ing been stamped out of his nature
when he was forced as a young man
to break off the engagement which he
had made to marry the daughter of a
Swedish country pastor, with whom
he had become infatuated, and to wed,
not for love, but merely for state and
dynastic reasons, the by no means at-
tractive daughter of the Grand Duke
of Baden.

The policy he has followed since
coming to the throne indicates that
Gustaf possesses a strong will and a
high sense of justice, but he certainly
lacks that peculiar attractiveness
which so much distinguished his father
and which undoubtedly would
stand him in good stead at the pres-
ent crisis when, according to most re-
liable information, he is in imminent
danger of being forced to join the
growing list of kings without thrones.

NOTICE

Notice is hereby given that sealed
bids will be received by Cooper Town-
ship School Board, until 12 noon of
Saturday, June 2, 1917 for the erec-
tion of a 4 room school building to be

RURAL MEMBERS ARE STIRRED UP

Working on Farmers' Needs
and Some New Legislation.

PLAN CHANGE IN DEPARTMENT

Agricultural Representatives Endorse
Scheme Which Would Abolish Com-
mission and Create Instead a Farm-
ers' Board With Sweeping Powers.
Proposed Fish Code in Senate.

Harrisburg, Pa., May 15.—A state-
wide census to determine the farmers'
needs and the resources of cities and
other populous places has been start-
ed. The object is to obtain the high-
est possible percentage of efficiency in
these critical days of scarce food sup-
ply.

The plans for the census have been
arranged at a conference of the gov-
ernor, representatives of the depart-
ments of labor and agriculture, John
C. Trazee, vice chairman of the school
mobilization committee, and a com-
mittee of agricultural members of the
house.

Definite information will be obtained
as to the area of the more than 225,
000 farms of the state, their present
crops, and what percentage of increase
could be obtained if adequate labor
were supplied.

The census also includes the can-
neries, and information will be obtain-
ed as to what their maximum capacity
will be if the necessary labor is ob-
tained.

At an enthusiastic meeting of the
rural members of the legislature on
day last week a majority decided to
raise a protest against the Whitke-
bill, placing the appointment of a
secretary of agriculture in the hands
of the agriculture commission. In-
stead they will press for the plan in-
corporated in the bills introduced in
the senate by Schantz, of Lehigh, and
in the house by Lohr, of Somerset.

Would Rip Out Commission.

This Schantz-Lohr plan would rip
out the agriculture commission alto-
gether and create a state board of
agriculture to be made up of one rep-
resentative from each of the sixty-
seven counties. This representative
would be chosen at a convention of
members of the Pomona Grange and
of agricultural societies. To be an
agriculture society within the mean-
ing of the act would mean any farm-
ers' organization raising at least \$50
for the promotion of agriculture.

The state board of agriculture, made
up of the sixty-seven representatives
from the counties of the state, would,
in turn, elect an executive committee
of seven. This executive committee
is empowered by the bill to appoint
the secretary of agriculture, dairy an-
d food commissioner, economic zoologist
and other attaches of the agriculture
department.

The rural members decided to op-
pose the Walter bill giving the state
right of eminent domain to take quar-
ry products for roads on the ground
that it is too broad in its powers.

The league will favor the bill to re-
quire men to show tax receipts before
being allowed to take out hunters
licenses and those for county boards
of assessors and for steeper means of
collection of taxes. The Sigfus town-
ship code bill was commended.

New Fish Code.

The new fish code passed by the
house with little opposition is expect-
ed to go through the senate without a
great deal of trouble. It has been
amended to meet the views of the
sportsmen's associations in the mat-
ter of preventing the stocking of pri-
vate streams closed to the public with
fish, furnished by the state hatcheries
and their objection to the emission
of this provision has been overcome.

The code has nothing to do with the
fishermen's license bill, which is a
separate measure, but governs the
fishing in the inland waters of the
commonwealth regulating the season,
size and creel limits and devices that
may be used and codifies the exist-
ing laws on these subjects. It takes effect
January 1, 1918.

The code forbids the taking of fish
in the inland waters in any other way
than with rod, hook and line, except-
ing in tidal waters and in the lower
Susquehanna. It forbids the sale of
bass, it wipes out the spear, net and
zig; it confines the number of hooks to
be attached to a line, to three. It
reduces the trout limit to twenty-five
per day; it opens the bass season July
1 instead of June 15. It regulates
strictly the catching of bait fish and
effects many other reforms that have
been long advocated by those desirous
of improving the fishing conditions in
the inland waters.

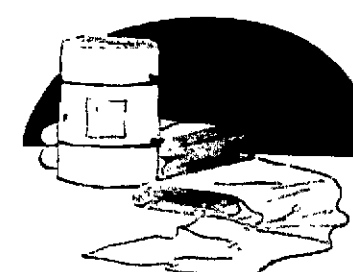

The house has defeated the Maurer
bill, authorizing second and third-
class cities to engage in farming, in-
cluding dairy farming, and selling the
productions to citizens at cost. This
was the first bill presented by the lone
Socialist member, Representative Mau-
rer, of Berks, to get as far as final
passage.

The Beyer bill, providing that one
half of the salary of any convict, mi-
nicipal or school district employe
who enlists in the army or navy, shall
go to the employe's dependents and
one-half to the person who is appoint-
ed to fill his place, has passed the
senate finally and goes to the gover-
nor.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings
Back its Beautiful Lustre at Once

Gray hair, however handsome, de-
notes advancing age. We all know
the advantage of a youthful appear-
ance. Your hair is your charm. It
makes or mars the face. When it
fades, turns gray and looks streaked,
just a few applications of Sage Tea
and Sulphur enhances its appearance
a hundred fold.

Don't stay gray! Look young!
Either prepare the recipe at home or
get from any drug store a 50-cent
bottle of "Wyle's Sage and Sulphur
Compound," which is merely the old-
time recipe improved by the addition
of other ingredients. Thousands of
talks recommend this ready-to-use

preparation, because it darkens the
hair beautifully, besides, no one can
possibly tell, as it darkens so natural-
ly and evenly. You moisten a sponge
or soft brush with it and draw this
through the hair, taking one small
strand at a time. By morning the
gray hair disappears, after another
application or two, its natural color is
restored and it becomes thick, glossy
and lustrous, and you appear years
younger.

Wyle's Sage and Sulphur Com-
pound is a delightful toilet requisite.
It is not intended for the cure, miti-
gation or prevention of disease.

CAUTION NOTE

Whereas, my wife, Mrs. Ethel Pet-
zer, having left my bed and board
without just cause or provocation, I
hereby caution all persons against
harboring or trusting her on my ac-
count, and I will pay no bills of her
contracting unless compelled to do so
by due process of law.
